

# TuneIn

Included with all new HC-250 and HC-800 controllers\*, TuneIn gives you free access to 70,000 radio stations and millions of podcasts and programs—all through the intuitive Control4® User Interface. The Control4® system makes it easy to enjoy your favorite artists, songs or radio personalities from either a local station or from anywhere around the globe!

## Get the music you want, where you want it

Hearing the music you love is simple with Control4 and TuneIn. From any Control4® Navigator interface you can search or browse for content by genre, artist, song, radio station, podcast, and more. TuneIn works with every Control4® audio zone within your home, so each family member can enjoy their own personalized favorites or listen to the same audio content in all zones at the same time.

## Discover and save your Favorites

Once your TuneIn account is added to the Control4 system, it's simple to add Favorites from a Control4® touch screen and have

them show up on all other navigators in your system. Access your Favorites on other interfaces as well, such as the TuneIn mobile app and on your computer. You can even have multiple TuneIn accounts added to your Control4 system so that each family member can have their own customized TuneIn experience

## What's on TuneIn?

Any and everything audio across the globe:

- New York hip hop to Icelandic indie rock
- World news from BBC to complete sports coverage from ESPN
- Public radio stations from coast to coast—KQED to WNYC and any independent radio station in between
- On-demand programs like The Adam Carolla Show and Fresh Air

Whether you want to hear music, sports, news or current events, TuneIn offers the world's radio and brings you to where you want to be.

\*Requires OS 2.4 or later. TuneIn can also be activated on legacy systems with an HC-800, HC-250 or HC-1000 controller when updated to OS 2.4 or later.
