

Control4® MyHome Setup Guide for Homeowners

Introducing Control4 MyHome

Control4 lets you use Control4® MyHome apps for your iPod Touch, iPad, iPhone or a PC, Mac, or Tablet (with Flash Player) to manage your Control4 system.

If you **don't** have a Control4 system:

- 1 Download the Control4 MyHome app for iPhone, iPod Touch, or iPad from the iTunes App Store or the MyHome app for the PC, Mac, or Tablet from www.control4.com (see "Supported Apps" or "Download the App").
- 2 Go to this Control4 web site: <http://www.control4.com/residential/where-buy/> to find a Control4 Dealer near you.

The Control4 Dealer can set up and configure your Control4 system and activate your app with a Control4 MyHome license for secure access to your Control4 system over your home WiFi or Ethernet network.

This guide shows you:

- System requirements
- MyHome license types
- How to download a MyHome app
- How to purchase and set up a mobile device or a PC, Mac, or Tablet license for a Control4 system

Supported Apps

- **Control4® MyHome - iPad**
 - Control4 MyHome app for iPad—iOS 3.2 or later and Control4 OS 1.7.4 or later (OS 1.7.4 or 1.8.2 require a software patch). See your Dealer for details.
- **Control4® MyHome - iPhone/iPod Touch**
 - Control4 My House app for iPhone/iPod Touch mobile devices (iOS 2.2.1 or later and Control4 OS 1.7.4 or later).
 - Control4 MyHome app for iPhone/iPod Touch mobile devices (iOS 2.2.1 or later and Control4 OS 2.0.1 or later). The iPhone GUI reflects Control4 OS 2.1.
- **Control4® MyHome - PC/Tablet**
 - Control4 MyHomePC app for PC, Mac, or Tablet devices (Control4 OS 2.0.1 or later and Adobe Flash and Adobe Air 2.5.1).

System Requirements

To use the MyHome apps, you must have a valid MyHome license, the apps you want to use, and the correct device. Your Dealer can help you get set up.

- **Licenses**
 - **Single device license (C4-MyHome).** For one (1) supported device only. Supports Control4 OS 1.7.4 or later.
 - **Site license (C4-MyHome-Site or C4-MyHome-Site-Trial).** For multiple (up to 50) supported devices in the system. Supports Control4 OS 1.7.4 or later.
- **Apps.** Control4 MyHome (see "Supported Apps").
- **Device(s).** Apple iPhone, iPod Touch, or iPad; PC, Mac, or Tablet (PCs, Macs, or Tablets must be running Adobe Flash).

Control4® MyHome Setup Guide for Homeowners

MyHome Licenses

Single Device License: A single Control4 MyHome license can be authorized only to one (1) device of any type; for example, if you purchase a device license for an iPhone, and then later switch to an iPad, your license can be transferred to the iPad, but the functionality is *no longer available* on the iPhone.

Example: If you have a license for an iPad and then upgrade to the next generation iPad, the license *can be transferred* to the new product.

Site License: A Control4 MyHome Site License enables functionality on multiple supported mobile devices or supported PCs, Macs, or Tablets of any combination. A limit of 50 devices can be authorized per project using the MyHome Site License.

Note: You may need to contact your Dealer after you purchase a Site License to help you add, remove, or change/replace a mobile device or PC, Mac, or Tablet in your system.

Download the App

iPad, iPhone, or iPod Touch

- 1 From your mobile device, go to the iTunes App Store, search for, and download the Control4 free MyHome app  to the device. See “Supported Apps” for the list of apps.
- 2 Follow the online instructions for download and authentication, if provided, or work with your Control4 Dealer who can assist you.

PC, Mac, or Tablet

- 1 From the PC, Mac, or Tablet, go to www.control4.com, search for, and download the Control4 MyHomePC app to the device. See “Supported Apps” for the list of apps.
- 2 Launch the Install package to install the app to your PC, Mac, or Tablet. Windows and Mac versions must support Adobe Air 2.5.1.

If you install the app on your desktop, it looks like this:

Purchase a License

Contact your Control4 Dealer to purchase a Control4 MyHome license for secure access to your Control4 system at home using the MyHome apps.

You're done! Now you can open your app and start enjoying the flexibility of managing your Control4 system from your mobile device, PC, Mac, or Tablet.

Support

For questions about setting up your devices to work with a Control4® system, talk to your Control4 Dealer.

More Information

For more information about the Control4 system, see the *Control4 Quick Start Guide* or *Control4 System User Guide* on the Control4 web site at: <http://www.control4.com/residential/products/resources/#documentation>.
