Happiest of holidays from all of us at Control4.

Save \$500 USD (£300 GBP) when you buy the HDMI Matrix Switch

Engineered with the Control4 installer in mind, the 8x8 HDMI Matrix Switch should be your go-to solution for HD video distribution. Here's why:

- Dependable HDBaseT technology supporting 1080p video, audio, Ethernet and control (IR & RS-232) over a single Cat-5e/6 cable for up to 100 meters
- Two HDMI outputs for local video display connections—no HDBaseT Receiver is required
- Control4-developed driver that contains programming actions to simplify programming and save time
- Analog audio breakouts
- Zone-locking—ensures maximum video and audio resolutions to specific zones
- 2U form factor
- Backed by Control4 support
- VIR incentive for qualifying dealers
- Now, you can save \$500 USD (£300 GBP)
