

Control4® Dealer Demo Kit

C4-DEMOKIT-120-V3
C4-DEMOKIT-240-V3

Home automation and connected home concepts are sometimes difficult to convey to a potential customer. But when you let them experience it themselves, the system practically sells itself! Designed with extensive input from the Control4 sales team, this Dealer Demo Kit will best highlight Control4 features and functionality. Better still, it's fully operational within minutes of being powered up and can be packed away in even less time.

- Sleek design, professional look
- Demos Control4 features in minutes
- Prewired for simple and easy setup
- Detailed instructions for initial setup, including router and all Control4 equipment identification
- Preconfigured project file available to highlight included hardware and features
- Simple to expand with door locks, sensors, IP cameras, and more
- Portable and easy to take anywhere
- Demonstrates core Control4 features: Lighting, Thermostat, Intercom, Navigator, Music, Keypads, and Speakers
- Built-in networking supports most forms of Internet access, including Ethernet WAN via DSL and cable Internet, wireless cellular access via 3G, 4G, and LTE modems
- Low cost for a complete Control4 mobile showroom—"Business in a Box"

Don't lose the opportunity to give potential customers a real Control4 experience, any time, anywhere! Order your demo kit today and improve your sales success immediately!
