WattBox 250I IPW Series
Firmware Release Notes

2.4.0.0 Release Details

- **Version:** 2.4.0.0
- **Release Date:** 01 June 23
- **Products Affected:** WB-250I-IPW-2

Improvements

- Password and username length has been increased for both the control API and Local UI. Password range requirement is now 8 - 63 characters. New password requirements do not impact old passwords that have already been set.
- Updated the power button to adhere to the power-on delay when the power button is pressed on the WattBox.
- Enhanced OvrC APIs to support future improvements.
- Added support for several future OvrC-enabled features.
- Made several cyber security enhancements.

Bug Fixes

- Fixed bug where device randomly reverts to older firmware version.
- Fixed a bug in the OvrC time configuration impacting GMT +13 regions.
- Fixed a bug where HTTPS certification may not be available until the following day.
- Added additional logic to ensure proper outlet state is followed after surge, brown out, and other rare conditions.
