

Control4® Leaf Model 4470 70V PA Amplifier

Control4 Leaf Model 4470 70V PA 4-Zone Amplifier (ZAU-Model4470)

The Leaf Model 4470 was designed to provide a one-box solution for commercial and light commercial audio distribution. Armed with 600W of total power, the 4470 is effectively four separate 150W 70V amps in one.

Innovative in its design, this RS232-controlled unit features a built-in 4x4 audio matrix, programmable VOX settings, zone loop outs, and control capability for local or in-zone control. Featuring four RCA source inputs, with the option to select two as microphone inputs, the Leaf 4470 can handle a variety of installation environments.
