

Media Player User Guide

Introduction to the Control4 Media Player V2

A key component of the Control4 vision to automate, control, and provide entertainment throughout the home is the Control4® Media Player—a device that plays back video files from your home network.

Using the Control4 Media Player with the Control4 system allows you to view video files on your TV, and eliminates the need to watch them on your computer. The Control4 system already allows you to browse cover art and play back your DVD and Blu-ray™ discs from any Control4 Navigator. With the addition of the Control4 Media Player, now you can also navigate and play your video files from the same user interface.

Using the Media Player

Before you start to use the Control4 Media Player (C4-MP2-E), ensure that it is installed, and both the Power and Link lights on the front of the unit are lit.

Also ensure that you or your Installer has used the Composer Media view to scan the network-attached storage for videos to use with this player.

See *Media Player Installation and Setup Guide* and *Composer User Guide* for more information.

Scanning the Media in Composer

1. Use the Composer software (Media Edition or Home Edition, Media View) to identify videos that you want the Media Player to be able to play. Videos can be added manually, or Composer can scan network-attached storage locations to add video files automatically.
2. In Composer click the **Media** view.
3. Select the network-attached storage where the videos are located, and then click the **Scan** or **New** button. Scan will automatically identify some types of video files (normally ISO and IFO/VOBS files in a videoTS folder). Other types of video files can be added using the **New** button. This action automatically updates the Navigators and provides cover art (if available) for easy video recognition.
4. For videos that haven't been identified in the scan process, use the **New** function to add the videos manually.

Additional details for advanced functions, such as adding your own cover art, are available in the *Composer User Guide*.

Special Features

The following sections show you how to do the following tasks from your Navigator. Use the System Remote Control to:

- Change video playback resolution
- Move through the video by percentages
- Use the Fast Forward, Rewind, Pause/Play, Stop and Skip Fwd/Skip Back functions

System Remote Control (SR-250) Buttons

The buttons below show the controls for your Media Player.

Pg Up/Pg Dn: Use to adjust the video playback resolution (1080p, 780p, 480p, etc.). You can use this to change the video resolution if you want to view a video in a specific resolution.

Skip Forward/Skip Back: Skips through video approximately 5% with each press of the button.

Play: Resumes playback after **Pause**.

Fast Forward/Rewind: Advance or rewind. Press 1 time to advance or rewind video 4 times play rate; press 2 times to advance or rewind video 16 times play rate; press 3 times to advance or rewind video 64 times play rate, etc.

Pause: Pauses video. Press **Play** to start video where it left off when you paused it.

Stop: Stops video. When you press Play, video starts at the beginning.

Numeric Keypad: Use with Go To. See "Go To."

'Go To'

Press numbers **1** through **9** on the keypad to jump to a specific point in the video.

Examples:

Press **1** to jump to 10% into the movie. Press **5** to jump to the middle of the movie (50%). If you are at the end of the movie, pressing **2** will take you back to 20% into the movie.

Troubleshooting

The table below provides troubleshooting information that may be useful to you.

| Problem | Possible Cause | Possible Solution |
|---|---|--|
| Error: could not play video. | Unsupported video file. | Make sure the video file is in a format supported by the Media Player. Try converting the video file into a format known to be compatible with the Media Player. |
| | Corrupt file. | If possible create a new version of the video from the original. Playing the video file on a computer can help you determine if the file is corrupted. This can help you confirm that the video file is in a format that the Media Player supports also. |
| Error: can not find video file. | NAS drive offline. | Ensure that your NAS drive is powered ON, properly connected to the network, and Enabled in Composer. |
| | A video file has been deleted from the NAS drive. | Add the video file to the NAS drive (scanning the video again in Composer is required also). |
| Video playback is not smooth or has pauses or skips. | Problem with the video file. | If possible, create a new version of the video from the original. If this is a high-definition video file, try reducing the video resolution. |
| | Network bandwidth issues. | Ensure that there is sufficient bandwidth available for video playback. Playback of multiple video files over the network or large internet downloads during video playback can limit network availability and impact video playback quality. The Media Player buffers approximately 10 seconds of video to help alleviate these problems, but if network issues persist then video playback issues may arise. If needed work with a networking professional to ensure your network has sufficient available bandwidth for video playback. |
| | Network Attached Storage issues. | Ensure that the NAS where your video files are stored is functioning properly |
| Poor Video Quality. | The video file is encoded in a low resolution. | If possible, create a new version of the video from the original using higher resolution settings. |
| Wrong language is playing. | The video may have multiple language tracks. | Provide the video file with only the desired language track |
| Video plays, but there is no audio. | The Audio track is encoded in DTS surround sound. | The Media Player supports DTS pass through only - meaning that it will pass the DTS signal through the digital optical (S/PDIF) and HDMI connections to a Receiver or TV, which must then decode the DTS signal. A DTS-compatible Receiver or TV is required for DTS audio to work. When playing a video file that has DTS encoded audio, the Media Player will not output any audio over the Left/Right RCA audio outputs. |
| | Unsupported audio codec. | If possible, create a new version of the video from the original. |

End User License Agreement (EULA) Terms

END USER SHALL NOT MAKE ANY LICENSED SOFTWARE OR ITS DOCUMENTATION AVAILABLE FOR ACCESS OR USE BY ANY PERSON, OR ENTITY OTHER THAN END USER.

END USER SHALL NOT CAUSE THE LICENSED SOFTWARE IN ANY WAY TO BE DISASSEMBLED, DECOMPILED OR REVERSE ENGINEERED AND SHALL NOT UNDERTAKE OR PERMIT ANY ATTEMPT TO DO SO.

END USER SHALL NOT TRANSLATE, PORT, MODIFY, ENHANCE OR MAKE DERIVATIVE WORKS OF THE LICENSED SOFTWARE.

END USER SHALL NOT OBSCURE, ALTER OR REMOVE ANY PATENT, COPYRIGHT OR TRADEMARK MARKING OR LEGEND CONTAINED ON OR IN ANY LICENSED SOFTWARE OR ANY ASSOCIATED HARDWARE COMPONENTS OR DOCUMENTATION.

END USER AGREES AND ACKNOWLEDGES THAT HILLCREST AND ITS LICENSORS SHALL RETAIN ALL TITLE TO THE LICENSED SOFTWARE.

HILLCREST SHALL BE AN EXPRESS THIRD PARTY BENEFICIARY OF THE EULA, ENTITLED TO ENFORCE SUCH AGREEMENT AGAINST END USER IN ACCORDANCE WITH ITS TERMS.

END USER ACKNOWLEDGES THAT WITH RESPECT TO THE LICENSED SOFTWARE AND ANY SUPPORT, CUSTOMER SERVICE, OR OTHER MATERIALS OR SERVICES RELATED THERETO, HILLCREST MAKES NO WARRANTY OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE. HILLCREST SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE WARRANTIES OF MERCHANTABILITY, TITLE, ACCURACY OF DATA, NON-INFRINGEMENT, NON-INTERFERENCE, AND FITNESS FOR A PARTICULAR PURPOSE. 8. IN NO EVENT SHALL HILLCREST OR ITS AFFILIATES BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES UNDER OR RELATED TO THIS AGREEMENT, EVEN IF HILLCREST HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

THIS PRODUCT IS PROTECTED BY CERTAIN INTELLECTUAL PROPERTY RIGHTS OF MICROSOFT. USE OR DISTRIBUTION OF SUCH TECHNOLOGY OUTSIDE OF THIS PRODUCT IS PROHIBITED WITHOUT A LICENSE FROM MICROSOFT.

THIS PRODUCT IS LICENSED UNDER THE MPEG-4 VISUAL PATENT PORTFOLIO LICENSE FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER FOR (i) ENCODING VIDEO IN COMPLIANCE WITH THE MPEG-4 VISUAL STANDARD ("MPEG-4 VIDEO") AND/OR (ii) DECODING MPEG-4 VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NON-COMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED BY MPEG LA TO PROVIDE MPEG-4 VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION INCLUDING THAT RELATING TO PROMOTION, INTERNAL AND COMMERCIAL USES AND LICENSING MAY BE OBTAINED FROM MPEG LA, LLC. THIS PRODUCT IS LICENSED UNDER THE AVC PATENT PORTFOLIO LICENSE FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER TO (i) ENCODE VIDEO IN COMPLIANCE WITH THE AVC STANDARD ("AVC VIDEO") AND/OR (ii) DECODE AVC VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NON-COMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED TO PROVIDE AVC VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION MAY BE OBTAINED FROM MPEG LA, L.L.C. SEE [HTTP://WWW.MPEGLA.COM](http://www.mpegla.com).

THIS PRODUCT IS LICENSED UNDER THE VC-1 PATENT PORTFOLIO LICENSE FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER TO (i) ENCODE VIDEO IN COMPLIANCE WITH THE VC-1 STANDARD ("VC-1 VIDEO") AND/OR (ii) DECODE VC-1 VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NON-COMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED TO PROVIDE VC-1 VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION MAY BE OBTAINED FROM MPEG LA, L.L.C. SEE [HTTP://WWW.MPEGLA.COM](http://www.mpegla.com).

Regulatory Compliance

North America

FCC/Industry Canada

This device complies with Part 15 of the FCC Rules Sub-Part B and with Canada ICES-003 and RSS-Gen. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Australian/New Zealand

This product has been tested to the requirements of, and shown to be in compliance with, the following requisite standard:

- AS/NZS CISPR 22: 2006/A1:2007—Information Technology Equipment—Radio disturbance characteristics.

Third-Party Licenses
