

MyHome iOS Open Source and Object Code Request Form

You may request a copy of the open source and object code for MyHome iOS by submitting the form provided below. A \$20 processing fee for handling and shipping is required for each request. Refer to individual source packages for copyright and license details or exceptions or alternate licensing of those source packages. Control4 is committed to meeting the requirements of the open source licenses including the GNU General Public License (GPL) and will make all required source code available. For more information, please see the Control4 Open Source Software Notice.

Please fill in the form below

Name	Company
Address	City, State, Country, Zip/Postal Code
Contact Phone	Contact email

What open source module are you interested in?:

Reason for requesting open source (select all that apply):

- Change version to enhance my product (new feature)
- Change version to resolve an issue (Bug Fix)
- To study your source code
- Other (please specify)

Send this form with a USD 20.00 check or money order made out to Control4 Corporation to:
