## CONTROL4® RECEPTACLE OUTLET SWITCH

C4-V-ROSW120-xx

Intelligent lighting is an essential part of every smart home and provides added convenience and peace of mind. The Control4 Receptacle Outlet Switch provides an elegant way to invisibly control lamps and other plug-in devices in your Control4 system. It includes one always-on outlet, and one switched outlet for on/off control of virtually every 120V lighting load type, including LED lights, incandescent, halogens, compact fluorescents, and other plug-in devices. Built-in Zigbee allows control through Control4 interfaces, lighting scenes, and programming. It also functions as a repeater, extending the range of the Zigbee network. A button on the front of the outlet allows it to be controlled locally. Available in 8 stylish colors and finishes.
