

Safety and Security

Intelligent security gives you peace of mind knowing your family and home are safe and secure.

- Take control of your home access with smart locks
- Assign temporary lock user codes for deliveries and service workers on the fly
- Lock every door and arm the alarm directly from an intuitive user interface
- Receive push notifications when the kids get home
- View the video feeds from your security cameras
- Get notified when the alarm is triggered or when a water leak is detected
- Trigger an "Alarm" lighting scene when the a security alarm is triggered
