

IR MINI SAT

This very compact satellite speaker was designed for use alone or with a Triad Sub to complete an attractive, great sounding full range speaker system, suitable for two-channel music systems as well as intimate home theater applications. When used with a subwoofer as part of a sub/sat system, the InRoom Mini Sat produces sound rivaling much larger and imposing speakers.

As with all Triad InRoom speakers, the InRoom Mini Sat is offered in a large variety of real wood veneer finishes, as well as an unlimited array of custom matched veneers and paint colors to blend in with your shelves, cabinet, or wall unit. Where "small" needs to be "good," the InRoom Mini Sat is a Unique Solution.

2-way design.

Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
