

IR SILVER CENTER

The new InRoom Silver Center has a clean look and improved sound quality. A new horizontal array design, optimized for center use, yields a significant increase in sensitivity and power handling. Movie dialog is always clear and intelligible. When paired with the InRoom Silver LCR or Triad's new InRoom Silver LR-H Dolby Atmos speakers, the InRoom Silver Center channel speaker becomes the heart of a breathtaking theater experience.

The InRoom Silver Center channel speaker is manufactured in our Portland facility, one at a time, and features premium drivers and an enclosure as solid as a bank vault. An unlimited array of custom veneer finishes and custom paint matching are available to blend with your environment. When used with Triad Subs and Triad Surrounds, the result is exceptional performance on both music and movies, whether used with a modest A/V receiver, or premium separate components.

Category: Home Cinema

Tag: InRoom

Triad AcoustiPerf metal grill.
Horizontal Format.

Enclosure

Fully engineered, Premium MDF enclosure.
Acoustic Suspension.
2-way design.

Finishes

Triad's Basic, Real Wood Veneer & Custom Finishes are available for this product. The standard finish for this product is Black paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish. The veneer finishes are made from real wood and coated with an enamel clear coat.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
