

IR SILVER LCR

The newly redesigned InRoom Silver LCR has a clean look and improved sound quality. Perfect for use in receiver-based systems, the Silver LCR is a great performer, with high output and realistic dynamics. Despite its modest cost, it's a serious home theater speaker capable of reference levels in moderately-sized rooms.

Like all Triad home theater speakers, the InRoom Silver LCR is built-to-order in Triad's modern, green factory in Portland, Oregon, and features a 10-year limited warranty. Triad speakers can be ordered in virtually any veneer or paint finish, at additional cost, to blend into your environment so your system will look as good as it sounds. When used with Triad Subs and Triad Surrounds, the result is exceptional performance on both music and movies.

Category: Home Cinema

Tag: InRoom

Enclosure

Fully engineered, Premium MDF enclosure.
Acoustic Suspension.
2-way design.

Finishes

Triad's Basic, Real Wood Veneer & Custom Finishes are available for this product. The standard finish for this product is Black paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish. The veneer finishes are made from real wood and coated with an enamel clear coat.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
