INWALL SILVER/4 OMNI SE

Triad's new Omni SE series' design goal was to provide the best possible full-range sound with the smallest footprint. With different configurations of the same model, there is an Omni SE for virtually any application. The InWall Silver/4 Omni SE is a premium inwall speaker featuring a fully engineered, sealed, and braced enclosure for uniform results and no sound bleeding into adjacent rooms. The SE version features exceptional drivers and crossovers for articulate, extended bass, crystal-clear treble, and substantial output.

You can order your Omni SEs with the grill and frame color matched at our factory to the sample you provide, for seamless integration into your decor. InWall Silver/4 Omni SEs can be used for two-channel systems in smaller rooms, upgraded distributed audio, or as part of an intimate home theater system when used with one of Triad's potent, shallow SlimSubs. When you want the best sound and the least visual impact, choose Triad.
