

Triad® Outdoor OD Speakers and Subwoofer

Triad® Outdoor OD Speaker System with Garden Array Subwoofer

The Triad Outdoor Speaker System with Garden Array Subwoofer is a family of premium, all-weather outdoor speakers that are the perfect combination of aesthetics, sound, and durability. This family includes the OD25 and OD26 Outdoor Satellite Speakers and for additional low-frequency bass reinforcement, the powerful GA10 Subwoofer. These speakers are the perfect choice for rich, beautiful outdoor entertainment.

The OD25 and OD26 Outdoor Satellite speakers feature an adjustable bracket for easy, discreet mounting to all surfaces. They also feature the same Acoustiperf grill as all of the triad indoor speakers, but in an anti-corrosion aluminum alloy material for outdoor durability.

The compact, yet powerful GA10 Subwoofer is designed for both above-and below-ground installations so the bass can be located exactly where you want it—on the patio or deck, or buried near a pool, gazebo, or pergola. Kits are available for either type of installation.

The Triad Outdoor Speaker System combined with the Garden Array Subwoofer is the perfect choice for scalable outdoor entertainment.
