

OW SILVER SUB

Based off the newly redesigned InWall Silver/15 Sub, it's the perfect choice of prodigious bass and a compact enclosure all designed for dedicated theaters using cloth wall systems. The OnWall Silver/15 Sub features a 600 watt amplifier, a long-throw, cast-basket 12" driver, and the most structurally solid subwoofer enclosure available anywhere.

Now you can have serious bass—not the weak bass from conventional open-back “woofer” designs that lack extension, articulation and output, but rather bleed unwanted sound into adjacent rooms. The new amps provide simple “plug-and-play,” and EZ set-up. Designed for easy mounting, the OnWall Silver Sub comes with isolation brackets mounted to the solid, sealed enclosure. You can have great performance right out of the box in nearly any room. Where there is at least 9" of depth; in a false wall, a cabinet, or behind cloth wall systems; the OnWall Silver/15 Sub is the one answer for powerful yet invisible bass. It's another Triad Unique Solution.

- Auto-sense
 - Adjustable Trigger Voltage
 - Adjustable Off Delay
- Optimize multiple subs for best performance
 - Input Gain matches levels.
 - Delay time aligns subs together for better impact

Enclosure

Fully engineered, Premium MDF enclosure.

Acoustic Suspension.

Powered subwoofer.

Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
