

OW SILVER SURROUND

Where surround speakers can't be built in, the OnWall Silver Surround provides another Unique Solution. The OnWall Silver Surround, a member of the Triad Silver Home Cinema family, provides full-frequency reproduction of analog and digital surround information, while blending into the environment. Three premium drivers are used in this innovative bipole to yield high output and a satisfying, enveloping surround field.

As this speaker is built-to-order in America, you can specify a dipole configuration, if you wish. The low profile speaker comes with Triad's exclusive Acoustiperf grill, and is painted either black or white. Virtually any color can be ordered to either compliment the decor, or blend in perfectly. The OnWall Silver Surround can be used in arrays of multiple pair in larger rooms, and can be either wall mounted or ceiling mounted to suit the situation.

Category: Home Cinema

Tag: OnWall

Features

Dipole and Bipole versions available.
Compact Design.
Triad AcoustiPerf metal grill.

Enclosure

Fully engineered, Premium MDF enclosure.
Acoustic Suspension.

Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
