

# CONTROL4 WIRELESS FAN SPEED CONTROLLER, CONTEMPORARY

## CONTROL4® C4-4SF120-C

Control4's new Contemporary Lighting is designed to elevate lighting control and aesthetics. With a beautiful design that suits the smart home of today, Contemporary Lighting gives you a new industrial design that customers will love.

Enjoy simplified, quiet fan speed control of standard paddle-type ceiling fans with four fan speed buttons and one off button so you can incorporate your fans into climate control scheduling, energy management, and other automated events. Available in 10 stylish colors and finishes. 120V.

Faceplates are not included—remember to order faceplates separately.

- Controls a single paddle-type ceiling fan up to 2A\*
- Includes four fan speed buttons and one off button
- Continuously measures energy being used by the fan
- Elegant, sophisticated design makes a beautiful addition to any home or business
- Custom engraving available to clearly identify each button
- Backlit button engraving with programmable color control for easy readability regardless of time of day or light level
- Programmable RGB LEDs provide status feedback for fan speed, lighting and other devices in the system
- Ambient light sensor automatically adjusts backlight and status LED brightness depending on the light level in the room
- Available in a wide array of gloss and satin colors (see Available Colors)
- Control4 screw-less faceplates, sold separately, provide a sleek profile (see Available Accessories)

\*Note: Fans with integrated lights must have separate control of the fan and the light from the wall location. Do not use the Fan Speed Controller to control the integrated lights. A dedicated dimmer or switch is required for light control. Not for use with shaded-pole type motors (e.g. bathroom exhaust fans).
